

Vignettes 17

Hi everyone

Nothing like a bit of variation in photography so I hope you enjoyed Kate Peake's talk and film show. I thought it was terrific by adding another dimension (literally!). Also refreshing too to hear Kate's views that there is life outside club competition photography! However, we might just be seeing her representing her club in the upcoming Battle against Stroud.

Next Monday 3rd Feb

Next week's club meeting is a return match against Cheltenham and Stroud. At the last match against these clubs the result was close, and we were complimented by being described as a club which "pulls above its weight". Let's hope we can go the extra mile this time.

BBC pictures

As usual the BBC have managed to find some interesting subject matter. Check out the Hackney street pictures from the 1970's. It's probably an age thing but I love that sort of time capsule stuff. The architecture photos are also terrific. It's amazing the angles you can get with modern architecture.

Photovision exhibition, Gardens Gallery, Montpellier Gardens, Cheltenham

The Cheltenham Camera Club are holding a free exhibition in the Gardens Gallery from the 5th Feb - 11th Feb so come along and have a look at what the competition are up to.

A reminders members' night

Just a reminder that we have a members' night on the 17th Feb coming up that you need to be thinking about. We felt that, for half of the evening, we could run a "my most modified photo" programme where you get to show the original and final image to illustrate what you've done, how and why you did it. Always entertaining to see why people believe in an image worth working on. For the second half we are open to suggestions. It's your club so let us know what you think.

That's it for this week. See you Monday

Martyn (thehoneys@btinternet.com)
