Club News

Hi everyone. I hope you are all well. Here's Dave with his round up of Monday nights activities.

Programme Secretaries Review

Hi everyone. Many thanks to Paul and the battle selection committee for organizing a very interesting and entertaining evening this week. I thought the format of having the four groups worked well and produced some very interactive discussions. I wasn't surprised that there was wide range of views regarding the best images. That's generally what we find when we view the WCPF prints, and it's also what came out of the 'Everyone's A Judge' evening we ran a couple of years ago. I found it a challenge to differentiate between my favourites and the ones that I thought would do well in a competition or battle. For me they are not necessarily the same! I was pleased that my Antony Gormley Heavies was selected, but it was interesting that it was only picked out by our group, where I was able to explain the background and what was going on. Without that extra detail I feel some images are going to be found interesting, but not quite up there with the winners. I think a good 'bird on a stick', or a flower, are always likely to get more points from a judge. No doubt Paul will give more feedback on the images that came out on top. I think there were 9 or 10 highlighted, which gives the committee a good basis for selecting images for the WCPF DPIC in February next year, and the three-way home battle v Stroud and Cheltenham in March.

Next week we have another judging night, Competition C, which was an open competition. It is also the submission deadline for Competition D, with the set subject 'Automotive'.

It will be our normal start time of 7:30pm.

I hope to see you there.

Dave

Thanks Dave. Paul is sending his summary of the evening for next week's Vignettes.

Definitions of Set Subjects

SQUARE FORMAT: typically refers to using a square aspect ratio (1:1) intentionally as a creative constraint or theme. This can be achieved in camera, or by cropping during post processing. So, you are being asked to explore how composition, balance, or storytelling changes when restricted to a square. The square naturally invites symmetry, central framing, and geometric precision and works well for portraits, minimalism, or patterns. Rule of thirds still applies but feels different, centred subjects often look stronger in square, and negative space becomes more powerful. Explore how the square changes emotional or narrative impact. How does it shift the viewer's attention compared to landscape or portrait orientation?

AUTOMOTIVE: A follow- on from Amy Shore's Presentation in October. A chance to explore and creatively interpret vehicles and the world around them as your primary theme. This can go far beyond simply photographing a car — it's an invitation to tell stories, explore design, motion, culture, and even emotion through the lens of automotive imagery.

IN THE KITCHEN: Typically, a scene encompassing components or activities that you would find in the kitchen. This could be food still life, equipment and utensils or an activity such as stirring a pot.
