## Club News

Hi everyone. A happy new year to you all. I hope you had a great break, not too stressful and lots of new camera kit, stuff, photo books or whatever from Santa. It's been a while since we, at the Vignettes editorial team, have taken a two week break and one thing we've found since we got back to Vignettes Global HQ is that the world of photography doesn't stand still. So, there's quite a lot to report this week. With the weather being a bit chilly why not get rid of that good book you huddle up with by the fire and dive into Vignettes instead!

We are delighted to welcome a few new members over the Xmas break who have been plugged into the WhatsApp group and we look forward to meeting them next week. Membership is now at a very encouraging 50 which is great to see given the demise of many camera clubs in the south west over the last year.

Time flies and we are back with a bang with Charlie Waite's terrific Zoom talk on Monday night to kick off the new year. Here's Dave with his summary and introduction to what's coming up:

### Programme Secretary's Review

*Hi everyone*

*Well, that was a great start to 2026. 52 eager participants (including guests from Northleach and Kinton) tuned into Charlie Waite's Zoom lecture 'Behind The Photograph'. I thought it was a really enjoyable and inspiring talk. There were so many amazing images and a lot of well-conveyed ideas and thoughts about what made the images work, and, in a few cases, not work so well. The presentation was delivered in a very passionate, friendly and humble way.*

*I so liked the idea of 'geometric satisfaction'. That was right up my street. I thought Celia's question about whether his ability to spot and capture geometric, light and colour possibilities was a natural skill, or something he had learned, was excellent. I suspect a bit of both as he certainly stressed the advantages of studying other photographers and not being afraid of being influenced by them.*

*As well as 'geometric satisfaction' I noted his 'attend and intend' mantra, and his comment about being fastidious in designing an image. There were also a lot of 'decisive moments', either planned or, it seemed, mainly down to luck and good fortune. Curves, complementary shapes and colours (especially cold and warm combinations), perfectly timed shadows also featured a lot. As well as quite a few lonely trees.*

*As for the ladder, that's probably something you are going to need more with a 1957 Hasselblad than with a phone or even a DSLR, but the point about avoiding clashes in the image because of the wrong viewpoint was well made. I hope it has inspired some of us to do more landscape work, to look more closely at what the landscape offers in terms of geometric, light and colour possibilities. I thought it was refreshing not to be bombarded with apps to tell us when to go, where to stand etc. Charlie's approach largely seemed to be carry on, you never know what might be around the corner.*

*Next week we are back in club (remember where that is!?) for our UK Travelogue members night. We should see images of Scotland (Patrick & Ruth), Northumberland (Celia),*

*Yorkshire (Bex) and Wales (me). I was going to do Fowey but when I looked at my 1100 images gathered over the last 18 years I realized they weren't as good as I thought!*

*It will be our usual 7:30pm start. I hope to see you all then.*

*Cheers*

*Dave Cahill*

Thanks Dave, a good summary of an excellent evening and one worth thinking about again where costs are a little critical. 52 members from three clubs worked very well in helping to support the cost for a top line speaker.

### **Cirencester Garden Club**

Andy has been in touch following an email he's recently received:

*Hi Martyn.*

*Happy New Year to all. I received this e-mail, today (see below), with a request from Sue Walton of the Cirencester Gardening Club. As you can see, the Gardening Club is after a speaker on the theme of gardening photography. Definitely worth asking our members I think.*

*Best regards*

*Andy*

*PS. I shall e-mail Sue and inform her that we are asking our members. Here's the details, below and if anyone is interested can they let me know in the first instance just in case we get more than one member interested in doing a presentation. I think it could be fun.*

Richard Avedon's American West: what today's portrait photographers can still learn from this classic series

When the fashion and portrait photographer Richard Avedon (1923-2004) drove into the American West in 1979, he left behind the controlled perfection of his fashion work and the glamour of celebrity portraiture. What he found would produce one of the most studied portrait series in photographic history.

Richard Avedon: Facing West opens 15 January 2026 at Gagosian Grosvenor Hill, 20 Grosvenor Hill, London W1K 3QD. Open Tuesday–Saturday, 10am–6pm.

HIPA's black-and-white photo of the year

A stunning photograph of a rolling wave in the South Pacific Ocean won the General – Black & White category for Australian photographer Ted Grambeau. Clearly channeling the 'Power' theme of HIPA's fourteenth season, Ted's image was captured in Tahiti – one of his favourite haunts.

## Definitions of Set Subjects

**SQUARE FORMAT:** typically refers to using a square aspect ratio (1:1) intentionally as a creative constraint or theme. This can be achieved in camera, or by cropping during post processing. So, you are being asked to explore how composition, balance, or storytelling changes when restricted to a square. The square naturally invites symmetry, central framing, and geometric precision and works well for portraits, minimalism, or patterns. Rule of thirds still applies but feels different, centred subjects often look stronger in square, and negative space becomes more powerful. Explore how the square changes emotional or narrative impact. How does it shift the viewer's attention compared to landscape or portrait orientation?

**AUTOMOTIVE:** A follow- on from Amy Shore's Presentation in October. A chance to explore and creatively interpret vehicles and the world around them as your primary theme. This can go far beyond simply photographing a car — it's an invitation to tell stories, explore design, motion, culture, and even emotion through the lens of automotive imagery.

**IN THE KITCHEN:** Typically, a scene encompassing components or activities that you would find in the kitchen. This could be food still life, equipment and utensils or an activity such as stirring a pot.
